

2016 - BC Home Inspector Licensing Changes

BC's home inspection laws are changing. In March 2016, the BC government announced changes to the province's Home Inspector Licensing Regulation. These changes will come into effect on September 1, 2016. There are some new rules for home inspectors to follow including new contract requirements and inspection report requirements. There are also some new processes for anyone wanting to become a licensed home inspector.

To read more about the new requirements, please visit the Consumer Protection BC website at: www.homeinspectionrightsbc.ca.
